## R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
## Warning: package 'pander' was built under R version 3.5.3
```

Table 1: Analysis of Variance Model

	Df	Sum Sq	Mean Sq	F value	Pr(>F)
<b>Treatment</b>	3	1486	495.3	3.371	0.05467
<b>Residuals</b>	12	1763	146.9	NA	NA

Table 2: Mean values of nitrogen and phosphorus content measured in the fall of the establishment year (2019).

Treatment	Nitrogen Content (g N plant <sup>-1</sup> )	Phosphorus Content (g P plant <sup>-1</sup> )
CT	35.05977	8.25277
DG	54.11022	11.91324
PS	45.43541	11.03010
SE	28.97278	6.32805

*Note:*

CT = Control, DG = Digestate, PS = Paper Sludge, SE = Seaweed Extract

```
## The following objects are masked from bh_N (pos = 6):
```

```
##
```

```
## N..plant, Treatment
```

Table 3: Mean values of nitrogen and phosphorus content measured in the fall of the establishment year (2019).

	Df	Sum Sq	Mean Sq	F value	Pr(>F)
Treatment	3	1485.787	495.2622	3.370987	0.0546735
Residuals	12	1763.028	146.9190		

*Note:*

Signif. codes: 0 '\*\*\*', 0.001 '\*\*', 0.01 '\*', 0.05 '.', 0.1 ' ' 1

## Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
